AIM HIGH

Dear parents and caregivers,

SENIOR SCHOOL CAMP

The 2 senior classes have returned from a very successful camp at Waihi Beach last week. The students and parents enjoyed the week immensely despite the constant threat of rain trying to ruin the activities. Rough seas ended our rock pools activity and persistent rain halted a trip to the hot pools and made packing up camp a challenge, however the rest of the week went superbly well.

The Waihi Beach Surf Life Saving crew were fantastic. The children learnt about safe swimming at the beach, what to do if they ever got caught in a rip and CPR. Then they had some fun at the beach balancing on bogey boards in the surf, beach races and tug of wars. Then on day 2 it was Gold discovery as we visited Martha mine, the Education centre and then onto the Gold discovery centre. We were all amazed how much rock has to be dug up for the amount of gold and silver recovered – no wonder gold is so expensive. We finished the day with a swim down at the Bowen Town beach. No waves, but loads of nipping crabs. Day 3 was a walk through Karangahake gorge to look at the original gold era and the ruins of the past. Walking through the 1km long train tunnel was an exciting experience too. We were able to dodge the showers and remain dry throughout the 6km walk. We even got to see a seal on a rock in the middle of the river in the middle of the gorge. Back at camp we all had a well earned rest, and that was when we were supposed to visit the rock pools, but the waves would have washed us all out to sea. Day 4 had howling winds all night long and persistent rain so the Hot Pools were cancelled and we packed our gear ready to return to school and a decent rest for some very tired children. Phew!

THANK YOU to all the parents who contributed to making the camp so successful. Their proactive support with all jobs and duties was much appreciated and the teachers could just focus on the children.

Thanks to all the children who put their best foot forward, showed all the school values – especially resilience, and managed a week away from home. No mean feat for some of our youngest children.

Many more photos on the school website.

One tonne of rock mined to produce this much gold.

BULLS EYE EGG

- 1 slice wholemeal bread
- 1 egg
- Margarine

Using a round cutter or an upturned glass, make a hole in the middle of the bread. Thinly spread margarine on both sides of the bread. Heat frypan to low heat. Cook bread on one side until browned. Flip bread over, gently break the egg into hole. Cook on low heat until egg is set. Delicious!

The Mine Is Alive

Drip! Drop! Drip! Drop! Darkness loomed in the tunnel. It was like we were miners back in the day. I looked down on the floor, the rusty tracks became alive. The carts were moving and the miners were in them but they really weren't. Light was bursting through cracks in the walls, like a flickering light bulb. Cold, freezing water dropped on my head as I hiked through the cave. As we closed in on the first window, I peered through the opening. I glanced outside at the wild like scenery. I looked slightly ahead at the ground and saw muddy footprints. Gazing back towards the tunnel, the history was still there, trapped inside. The light vanished as I tramped away. By Jared

AFTER SCHOOL CARE SUPERVISER

We still desperately need an After School Care supervisor for Friday afternoons. The supervisor must be over the age of 16, but our preference would be someone aged 20 yrs or older. The time starts at 3.15pm and concludes when the last child leaves (5:30 generally being the latest a child stays.) The pay rate will be based on age and experience and paid per ¼ hr worked.

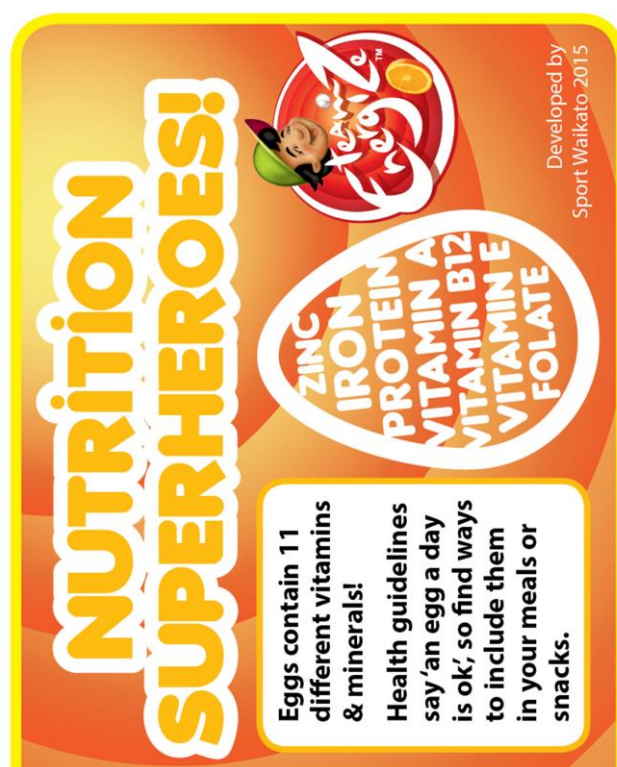

There must be a police vet performed for the supervisor and this can take 5 weeks to process so the sooner we have someone taking on the role the better.

Please contact the principal for further details.

Thank you to Leanne Montgomery who has offered to do ASC until the end of the term (it's supposed to be her day off too!)
